

# Assignment - I

Define a problem statement and give a brief Executive Summary snapshot.

- A) Executive Summary.
- B) Project Description
- C) Project scope

A) Executive Summary:- People want to use a convenient and affordable network with high speed. Jio network can be one but the problem is there are less no. of Jio towers. We want to make Jio as the most convenient and affordable network ever.

- The research says that there are less number of Jio network towers in some areas.
- The scope of the project is there should be more number of towers.
- The project process will be to check the areas and build towers. Those area which have less number of towers should first come into consideration.

B) Project Description:- In some of the rural areas there is very less number of Jio network towers and some industrial area too. There should be double number of Jio network tower and the rural area should be considered first.

C) Project Scope - As a lot of people are looking for a network which has high speed and is affordable, thereby increasing the numbers of Jio towers, network speed will increase and it will definitely attract people.
